Contract Workforce Management System (CWMS)

End-to-End Digitisation Blueprint

End-to-End Process Blueprint

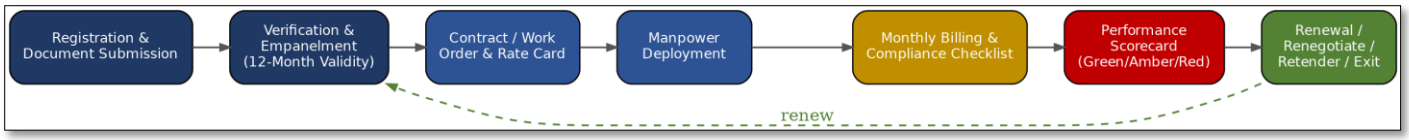

Module-wise Functional Blueprint

Module	Core Function	Primary Owner
1. Vendor Registration & Onboarding	Empanel only statutorily-compliant vendors before any work order is issued	IR Head / Legal / Finance
2. Contract Lifecycle Management	Create, approve, e-sign, amend, renew and close work orders with full commercial and SLA terms	IR Head / Procurement
3. Manpower Requisition	Route department manpower needs through budget and HR validation to the vendor	Site HOD / Unit HR
4. Contract Worker Registration	Capture verified worker KYC and statutory identifiers before deployment	Vendor / Unit HR
5. Document & Compliance Verification	Validate mandatory documents; block deployment on missing/expired documents	Unit HR / Time Office
6. Digital Induction & Access Control	Move a worker from registered to gate-active only after all checks clear	Unit HR / Plant Security
7. Attendance Management	Capture tamper-resistant daily attendance as the sole basis for billing	Site HR / Attendance System
8. Shift & Overtime Management	Plan shifts and auto-compute OT against approved rules and idle-time certification	Dept-in-Charge / Site HR
9. Payroll / Wage Processing	Compute wages and statutory deductions from verified attendance; disburse to worker accounts	Payroll Team / Finance
10. Statutory Compliance Management	Maintain the 12-document monthly checklist and all statutory registers, licence-linked alerts	Compliance Team / IR Head
11. Contractor Invoice Management	Auto-validate contractor bills via 3-way match before certification	Site HR / Finance
12. Finance Approval & Payment	Approve, post to SAP/ERP and disburse via bank with full audit trail	Finance Head
13. Contractor Performance Management	Score vendors monthly (Green/Amber/Red) and use the score in renewal decisions	IR Head
14. Worker Grievance Management	Provide a digital channel for salary, PF, safety and conduct grievances	Unit HR / Contractor
15. Contract Renewal & Closure	Evaluate performance, compliance and cost ahead of expiry; renew, retender or close	IR Head / Procurement
16. Worker Exit Management	Deactivate access and settle dues the moment a worker or contract ends	Unit HR
17. Vendor Exit & Contract Closure	Close out final invoice, deposits and records, including de-empanelment for cause	IR Head / Finance

Detailed Process Flows

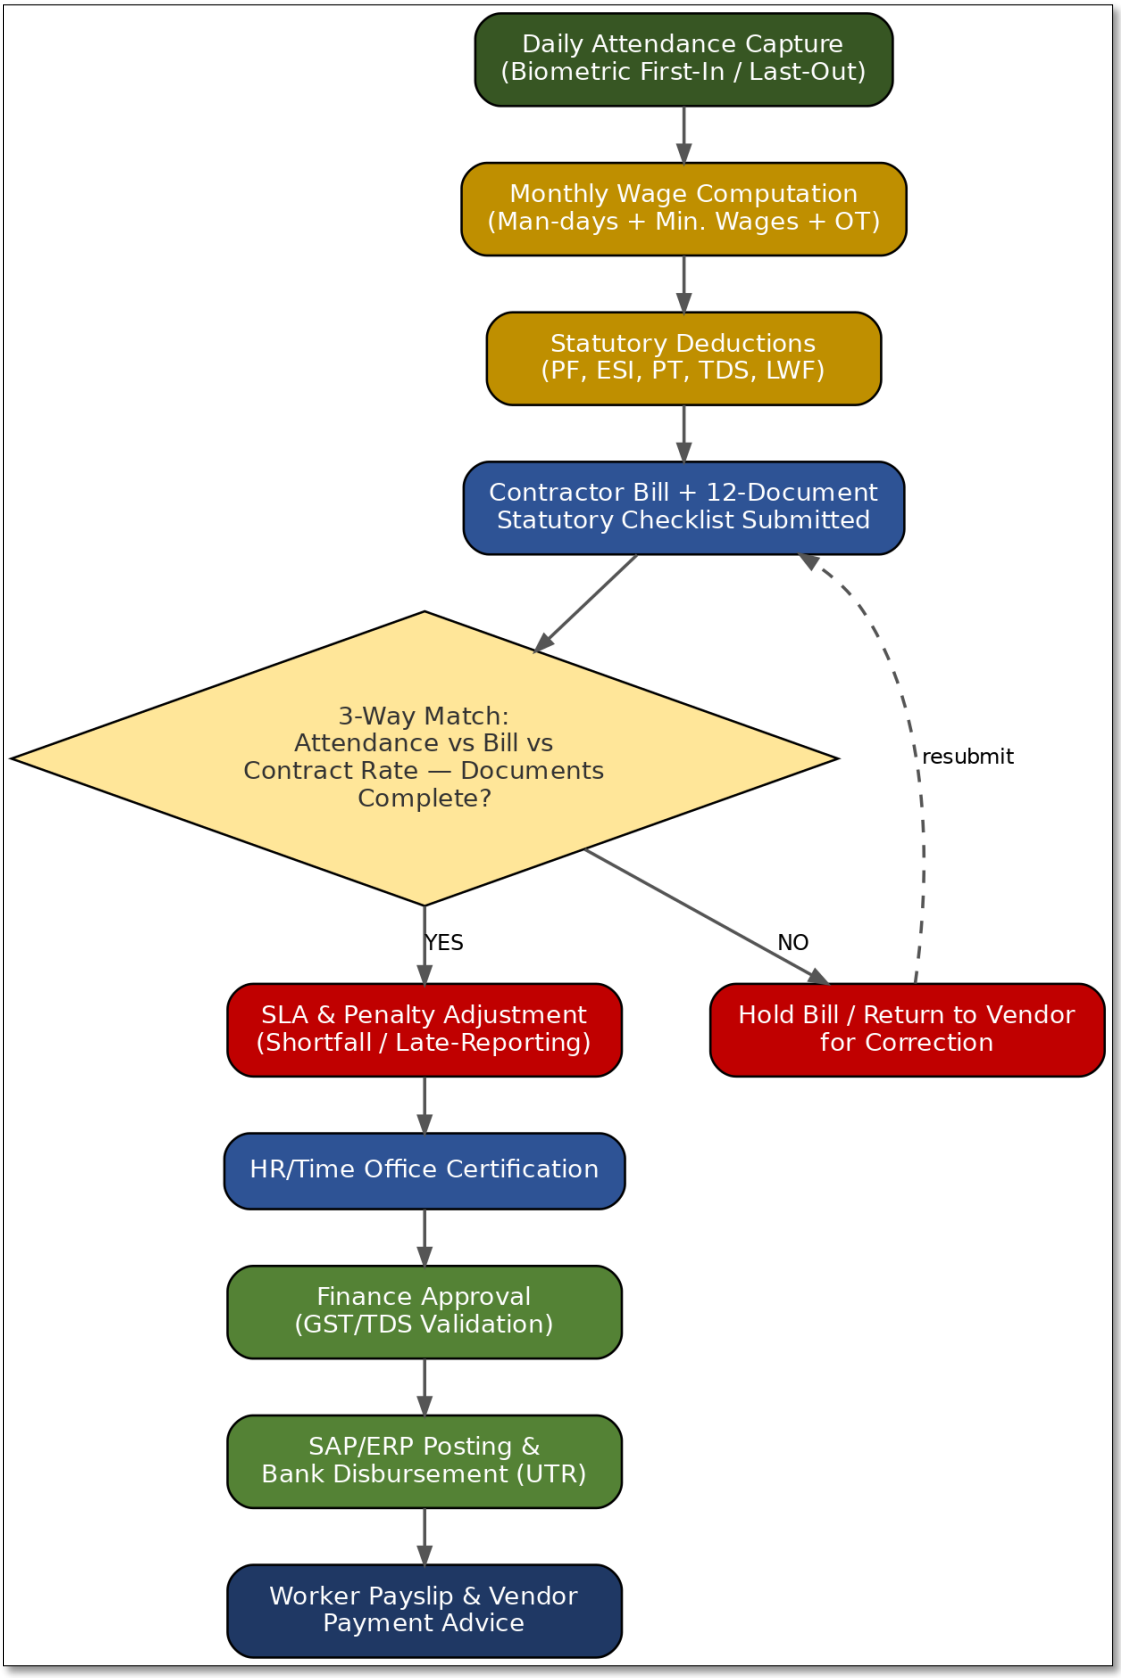

Vendor Lifecycle

Worker Lifecycle

Attendance-to-Payment Flow

Compliance Framework

Monthly Bill-Clearance Checklist (mandatory, all 12 items)

#	Document	Purpose
1	Attendance System summary, reconciled with Unit HR	Basis of billed man-days
2	EPF ECR & deposit challan (preceding month)	Evidence of PF remittance for deployed workers
3	ESIC contribution challan (preceding month)	Evidence of ESI remittance
4	GST return / payment acknowledgement (preceding month)	GST compliance and input-credit eligibility
5	Minimum Wages compliance — wage register / Form XVII	Confirms wages paid at or above notified minimum rate
6	Bank statement / wage-sheet evidence of salary disbursal	Confirms wages reached individual worker accounts
7	Valid Workmen's Compensation / GPA insurance certificate	Coverage for the deployed workforce
8	Labour Licence, ISMW & other registration renewals (as due)	Continued statutory eligibility to supply labour
9	Profession Tax (PT) monthly challan, where applicable	Confirms compliance under State PT Act
10	Labour Welfare Fund (LWF) contribution challan, where applicable	Confirms compliance under State LWF Act
11	TDS deposit challan / return, where applicable	Confirms compliance with the Income Tax Act, 1961
12	Signed monthly Undertaking-cum-Indemnity	Confirms full discharge of statutory dues; indemnifies the Company

Roles & Responsibilities

Role	Responsibility
Unit HR / Time Office / IR	Induction, Attendance System administration, daily reconciliation, document collection, first-level bill certification
Department-in-Charge / Site HOD	Day-to-day work allocation, idle-time certification, safety supervision, reporting of shortfall/misconduct
IR Head (Unit/Group)	Empanelment approval, statutory-compliance oversight, penalty and escalation decisions, contractor suspension/termination approval
CHRO	Policy ownership, Group-wide workforce governance, escalation authority for critical matters
Finance	Bill payment processing against HR-certified, document-complete bills only; GST/TDS validation; SAP/ERP posting
Procurement / Contract Owner	RFQ/tender, contract drafting, rate cards, renewal and retender decisions
CIO / IT	System architecture, integrations, security, uptime, mobile access
Legal	Contract clause review, termination and fraud-case review
Contractor / Vendor	Statutory compliance, supervision ratio, discipline of deployed workers, timely document submission

Role-Based Access Control Matrix

Role	System Access	Data Scope
Contract Worker	View own attendance, payslip, raise grievance	None
Contractor / Vendor Supervisor	Register workers, upload documents, view own bills & compliance status	Vendor's own workforce and contracts only
Unit HR / Time Office	Induction, attendance reconciliation, document verification, bill certification (maker)	Assigned plant/unit
Department-in-Charge / Site HOD	Raise requisition, certify idle time, approve OT, flag shortfall/misconduct	Own department
IR Head (Unit/Group)	Empanelment approval, compliance sign-off, penalty & escalation decisions, checker for HR actions	All units (Group) or assigned unit
CHRO	Full workforce visibility, policy governance, escalation authority, dashboard access	Group-wide, read + governance actions
Finance	Bill payment processing, GST/TDS validation, SAP/ERP posting	Group-wide, finance module
Procurement / Contract Owner	Contract creation, rate card, RFQ/tender, renewal decisions	Assigned contracts
Compliance Team	Statutory checklist validation, challan tracking, licence alerts	Group-wide, compliance module
IT / CIO	System administration, integration configuration, security controls	Full system, admin rights
Legal	Contract clause review, termination/fraud case review	Contract & compliance modules, read + advisory
Management / MD	Executive dashboards, critical alerts, strategic decisions	Read-only, all dashboards

Integration Architecture

.

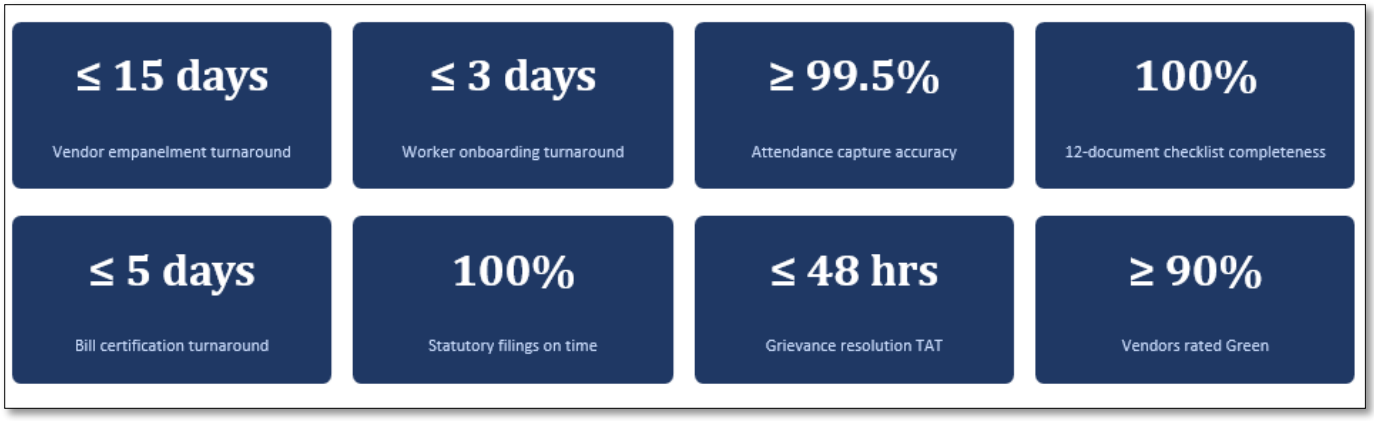

Dashboard Requirements

Dashboard	Key Content
CHRO	Total contract workforce, plant-wise/vendor-wise manpower, attendance & attrition trends, payroll spend, compliance status, contractor performance summary
Plant / Site HOD	Present vs required manpower, shift-wise deployment, absenteeism, OT trend, contractor performance at site
Finance	Pending/approved invoices, invoice discrepancies flagged by 3-way match, contract value on the books, monthly contractor spend
Compliance	Overall compliance score, documents expiring in 15/30 days, non-compliant vendors, PF/ESIC/PT/LWF filing status, licence status
MD / Management	Total contractor cost, workforce productivity, compliance risk heat-map, vendor performance (Green/Amber/Red), contract value exposure, critical alerts

Notifications & Escalation Matrix

Trigger	Timing	Escalation Path
Contract / licence expiry	90 / 60 / 30 / 15 / 7 days before expiry	System auto-alert to Vendor, Unit HR, IR Head
Statutory document overdue (bill checklist)	At bill submission; escalated if outstanding beyond 1 billing cycle	Unit HR → IR Head
Manpower shortfall 11-20 (Slab 3)	Immediate on bill computation	Unit HR → IR Head (show-cause notice)
Manpower shortfall 21-25 / 25+ (Slab 4/5)	Immediate	IR Head → Unit HR Head (termination review)
Two consecutive shortfall-penalty months (Slab 3+)	On second consecutive month	Mandatory Unit HR Head review — corrective plan / suspension / termination
Safety violation / incident	Immediate	Site Safety Officer → Unit HR → IR Head
Attendance/wage dispute or grievance	Within 48 hours of ticket raised	Contractor/Unit HR → IR Head if unresolved
Suspected fraud / forged documents (Sec. 13.4)	Immediate	Unit HR → IR Head → CHRO → Legal (immediate termination review)
Invoice 3-way match failure	At bill processing	Bill held → Vendor for correction; repeat failures escalated to IR Head

Key Performance Indicators

Risk & Mitigation

Risk	Severity	Mitigation
Vendor engaged without complete statutory registration	High	System-enforced empanelment gate; no work order can be raised against a non-empanelled vendor
Worker deployed without valid documents/medical fitness	High	Mandatory document validation blocks biometric activation and gate access
Proxy attendance / buddy punching	Medium	AI face + fingerprint + proximity authentication; anomaly detection on repeat patterns
Billing for absent or duplicate workers	High	3-way match (attendance vs bill vs contract rate) before certification; duplicate-worker detection
Statutory non-compliance discovered late (PF/ESIC/licence lapse)	High	12-document monthly checklist gates bill payment; 15/30/60/90-day expiry alerts
Wage paid below Minimum Wages Act rate	High	System validates computed wage against the notified minimum-wage master before disbursal
State Labour Code rules changing compliance requirements mid-year	Medium	Compliance module kept configurable; Legal/HR issue advisory before onboarding in any new state
Data privacy of biometric/personal worker data	Medium	Role-based access, encryption at rest, DPDP Act 2023-aligned consent and retention
Vendor fraud, forged documents or misappropriation	High	Immediate-termination clause (Policy Sec. 13.4), full audit trail, de-empanelment and reporting to authorities
Single point of failure in attendance hardware	Medium	Documented manual-attendance fallback with 48-hour reconciliation; AMC-backed hardware support
