CERTIFIED ISO 27001:2013 COMPANY

AICPA SOC aicpa.org/soc4so SOC for Service Organizations | Service Organizations™

Vulnerability Assessment and Penetration Testing

PURPOSE / MISSION

Our mission is to help organizations efficiently transform talent, ideas, and skills into outcomes and value.

CORE VALUES

WHIZIBLE is not just the name of our awesome software platform. It is also embedded in the core values our organization!

UNIFIED PLATFORM FOR PROJECT EXCELLENCE

OUR SOLUTION

Whizible is an integrated Work Execution and Delivery Governance platform built for project-based organizations like BFSI. Engineering Firms, GCCs, and Professional Services Companies. With a modular and configurable architecture, Whizible bridges strategy, execution, and governance—giving enterprises real-time visibility, better control, and predictable business outcomes.

Whizible is a single digital cockpit that brings together Projects, People, Costs, Risks, and KPIs in one cohesive ecosystem.

Whizible

Integrated Solutions

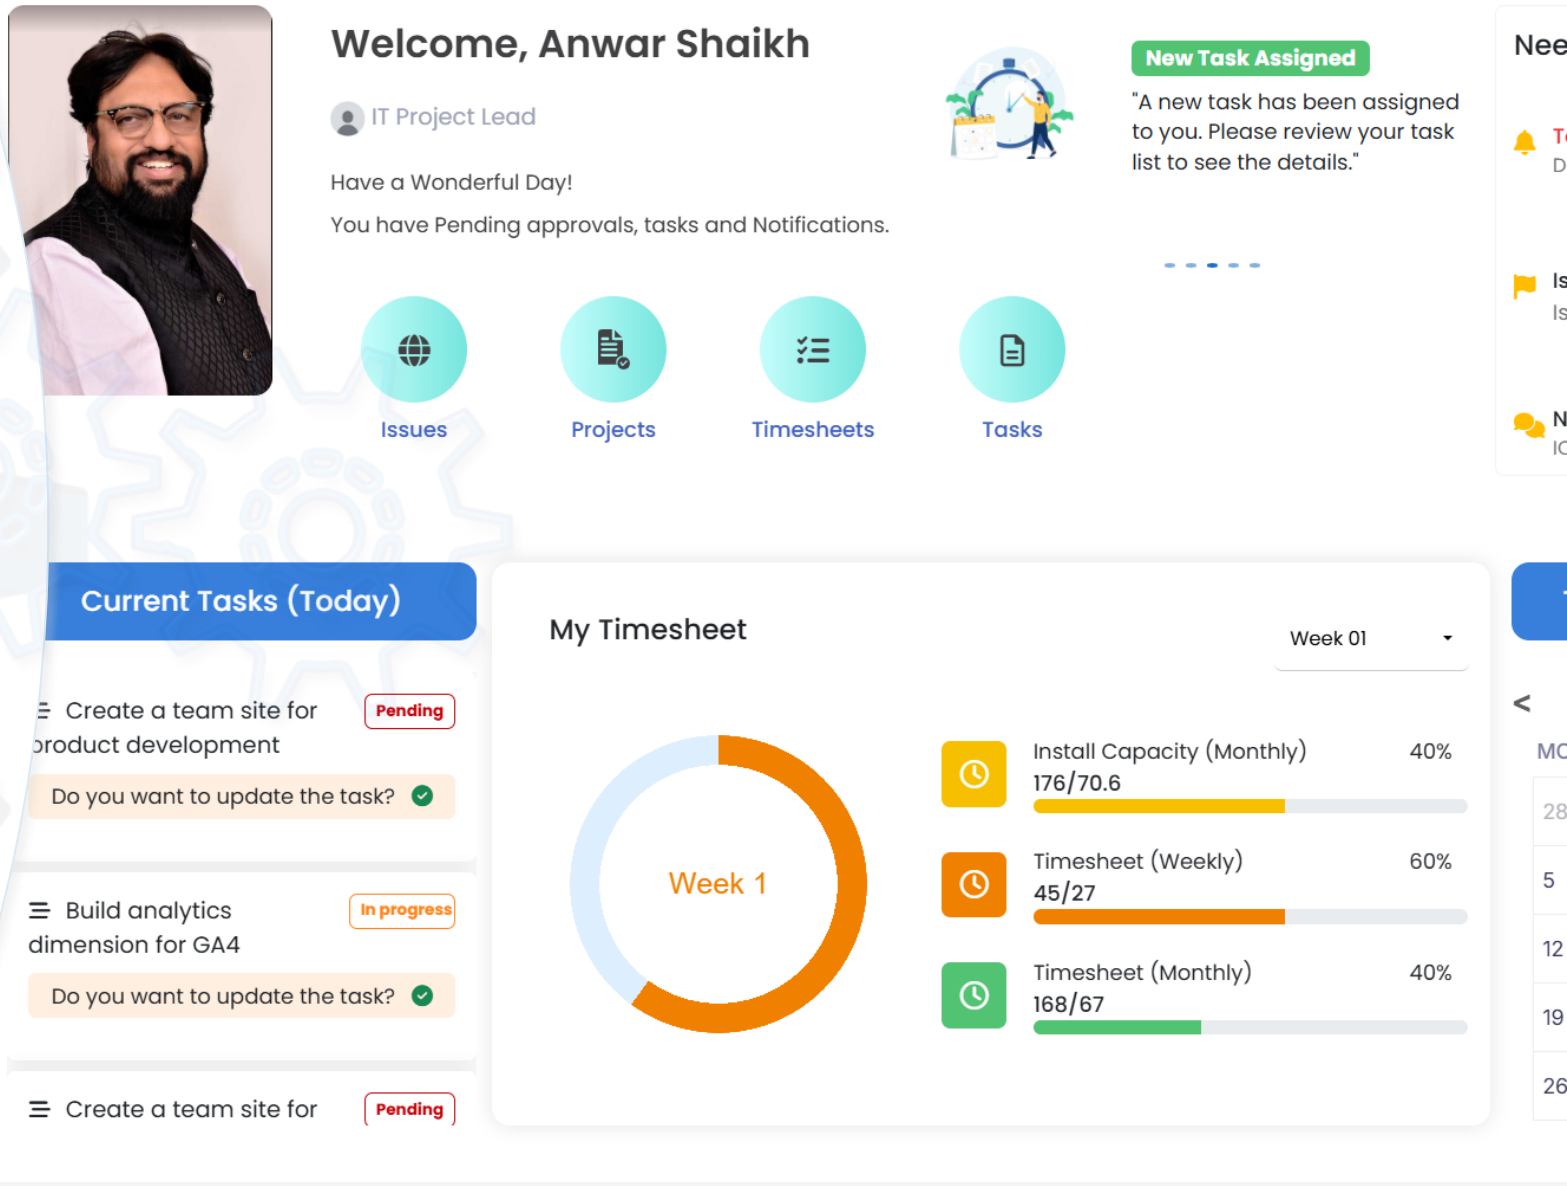

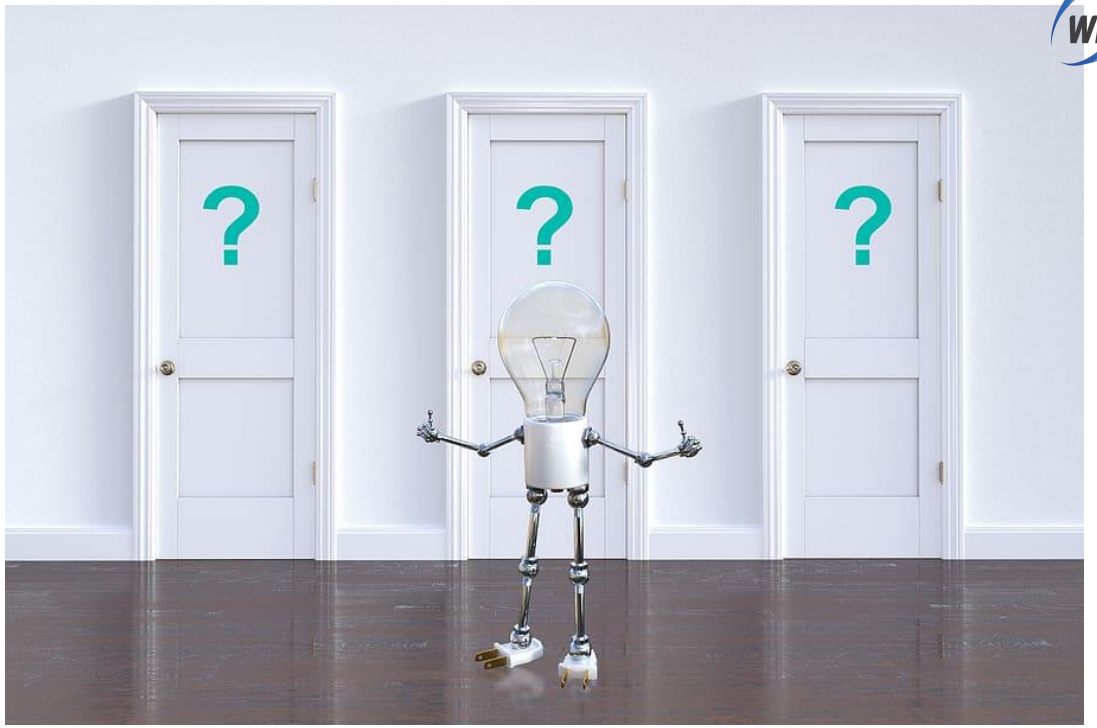

SINGLE VERSION OF TRUTH

NOW INTEGRATED WITH – MS TEAMS

ZERO FRICTION ADOPTION

THE NEED FOR WHIZIBLE

PROBLEMS WE SOLVE

- Poor visibility into project health and resource utilization
- Unifies Multi-Department Applications with a **Single Version of Truth**
- Fragmented project delivery, billing, and profitability tracking
- Manual or siloed timesheets, approvals, and effort tracking
- Absence of real-time decision-making dashboards

RESOURCE MANAGEMENT & OPTIMIZATION

- Skill-demand matching enables faster project staffing
- Reduced hiring lead times through internal fulfillment
- Clear visibility into organizational capabilities and strengths
- Improved workforce planning with capability mapping
- 25–30% improvement in resource utilization
- Balanced workload drives higher employee satisfaction
- Lower bench costs and minimized idle time
- Increased billability and overall team productivity

PROJECTS & TASK MANAGEMENT

- Project task planning
- Task assignment clarity
- Milestone & risk tracking
- Agile/Waterfall/ Hybrid support
- Audit trail logs

- Predictable project delivery timelines
- Improved team coordination and accountability
- Reduced delays due to structured workflows
- Better project health tracking across portfolios

TIMESHEET MANAGEMENT

Daily/weekly/monthly timesheet logging

Comprehensive Task-level granularity from All Task Sources

Timesheet approval workflows

Billable vs. non-billable hour tracking

Integrated with project and task management

Configurable policies for effort capture and reminders

Accurate effort visibility for billing and costing

Timely data for project burn rate analysis

Enhanced discipline and ownership among teams

Audit-ready effort records for clients and compliance

Whizible

WHY INTEGRATION OF TIMESHEET AND RESOURCE MANAGEMENT MATTER

- ❑ Control resource cost and project profitability
- ❑ Improve delivery timelines with optimized utilization
- ❑ Enable granular visibility for project managers and finance teams
- ❑ Foundation for accurate costing / billing, forecasting, and capacity planning

FINANCIAL MANAGEMENT & VENDOR BILLING

01 Cost Visibility (Internal & Vendor)

02 Automated Billing & Vendor Invoicing

03 Cost and Revenue Recognition Triggers

04 Capex vs. Opex Classification & Compliance

RISK & SECURITY MANAGEMENT

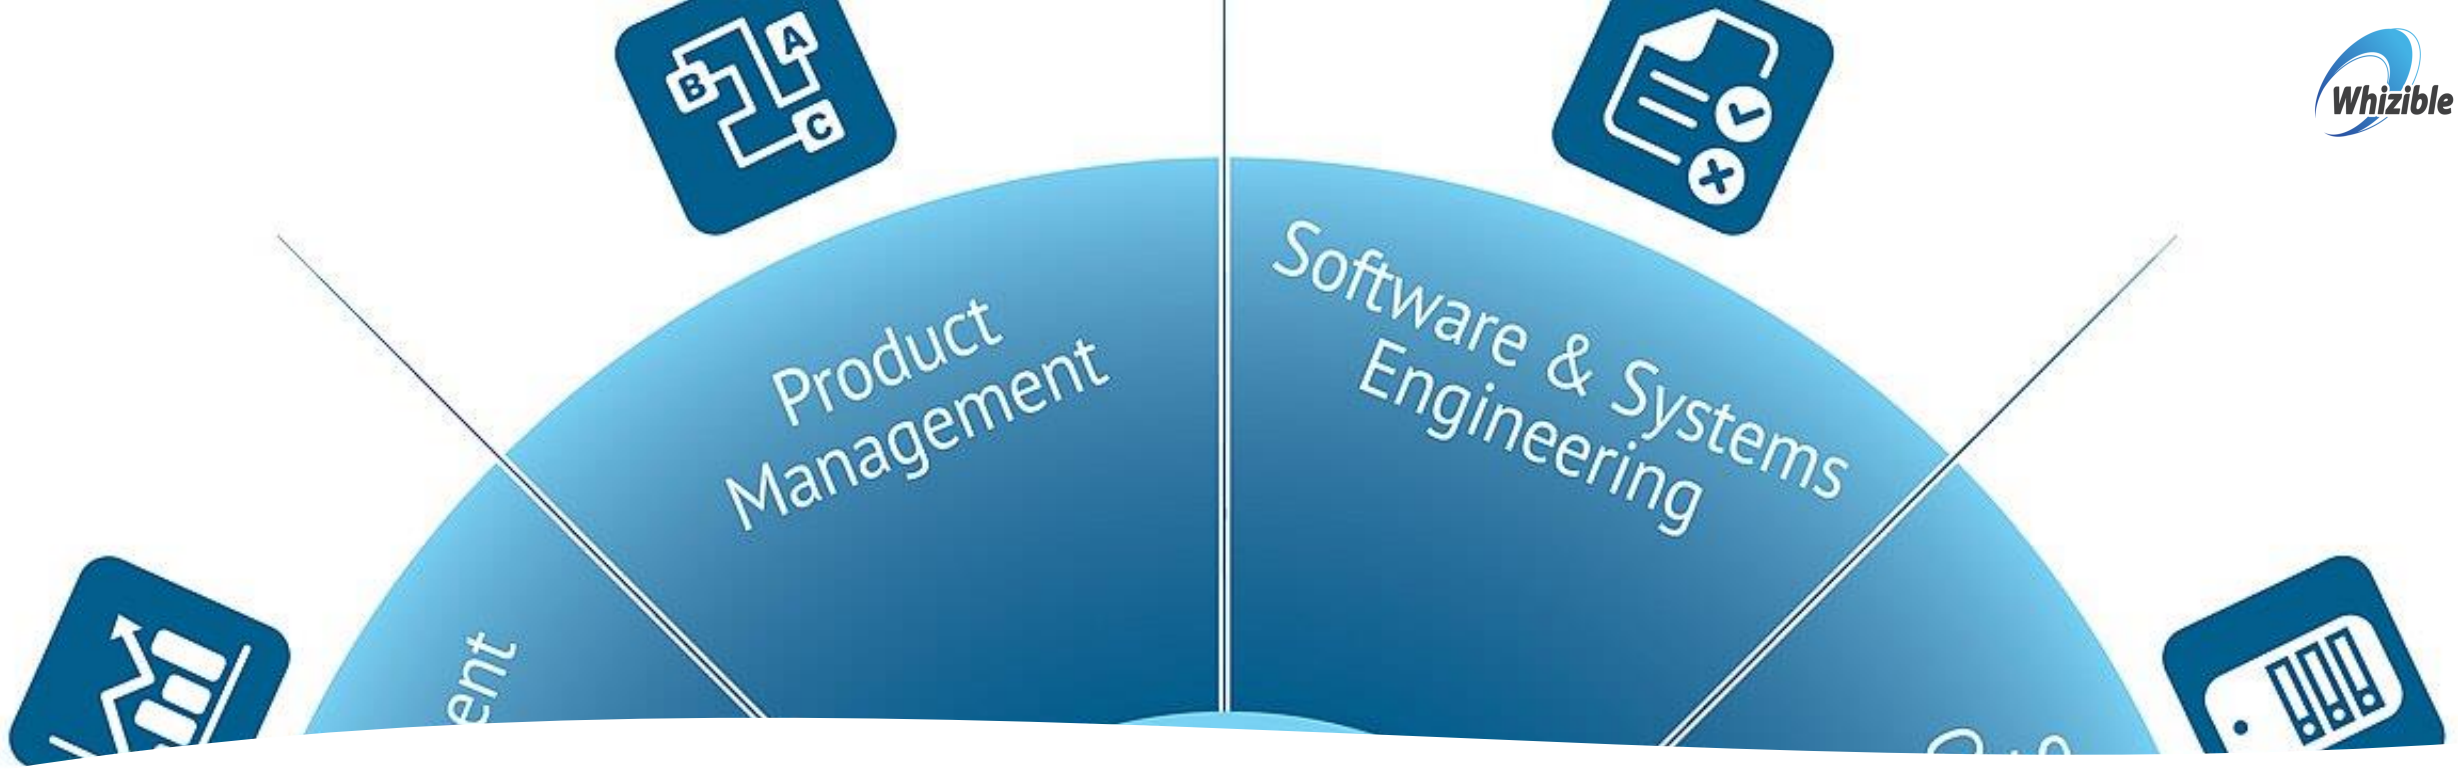

Proactive risk identification and mitigation

Reduced project failures or escalations

Increased confidence for PMO and leadership

Improved governance with documented action plans

QUALITY MANAGEMENT

Quality Processes can be templatized and inherited at the start of the project

Complete Test Case Management Functionality and Auto Posting of Defects

Configurable Metrics Definition allows for Real-time Monitoring of Quality Parameters

Defect Management Lifecycle including Attribution, SLAs and Time Tracking

KNOWLEDGE MANAGEMENT

- Centralization of organization process asset
- Searchable library tagged by domain, project, or skill
- Documentation of Project retrospective
- Role-based access control for knowledge assets

BUSINESS INTELLIGENCE & DASHBOARDS

- Real-time visibility into KPIs for PMO, Delivery, CXO
- Data-driven decisions and early intervention triggers
- Granular drill-downs for effort, risk, cost, and delivery metrics
- Increased operational transparency and governance maturity

HELPDESK & ISSUE MANAGEMENT

- Reduction in TAT for L1/L2 tickets
- Visibility of issue trends to improve delivery and internal systems
- Seamless conversion of Helpdesk tickets into CRs or tasks
- SLA compliance monitoring and escalation management
