Procure-to-Pay (P2P)

Vendor onboarding

Onboard suppliers with ease and ensure compliance

Send Vendor Portal

- Business info
- Security questionaires
- Payment methods

Seamless intake process

Let employees submit requests from slack/teams

John, what do you need help with today?

- Request a purchase
- Request contractor

Dynamic approval workflow

Customize workflows as per your requirements

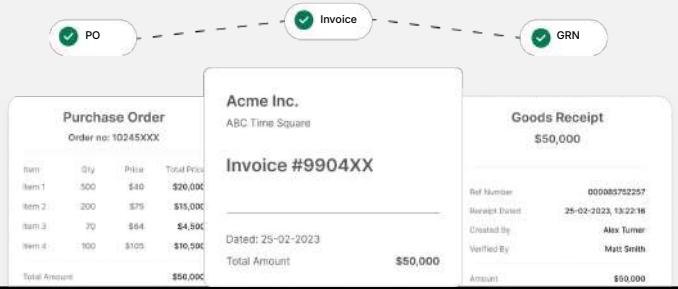

Auto PR to PO conversion

Auto populate all details from PR or contract repository

Accounts Payable

Accurate payments with 3-way matching

Vendor Portal

Upload and track payment status in real-time

Vendor Onboarding + Due Diligence

Enable your vendors to register on their own and let the system take care of validating and checking all their information

→ Easy vendor registration

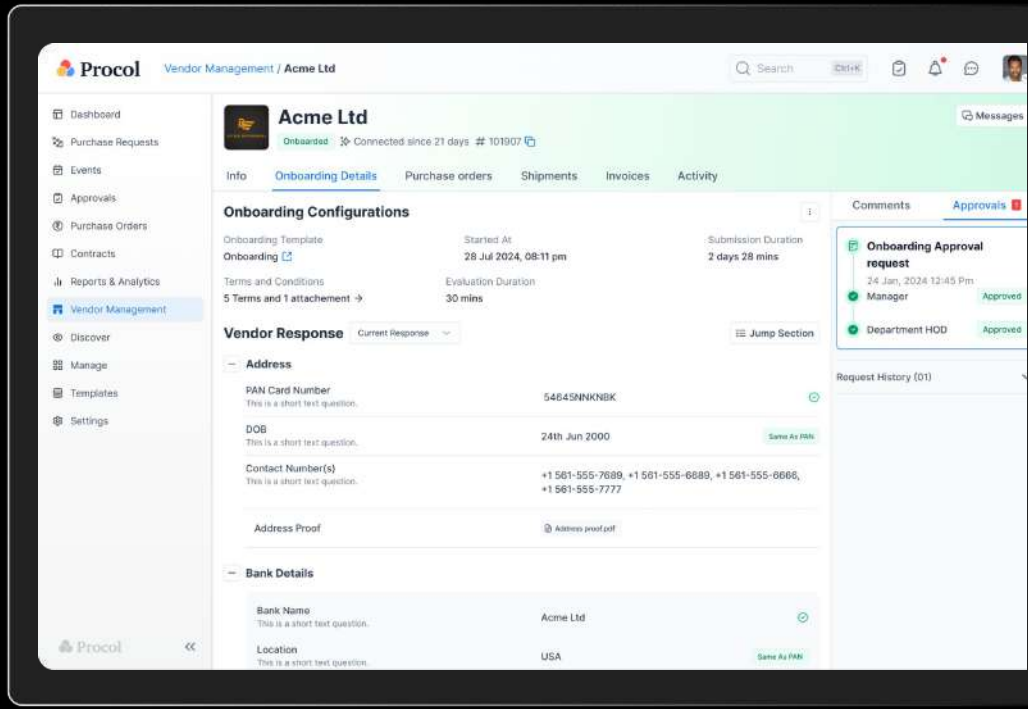

Vendors can register on the portal via email or phone numbers

→ Automated due diligence

Automatically verify a vendor's information like GST, PAN, Aadhaar, MSME, etc.

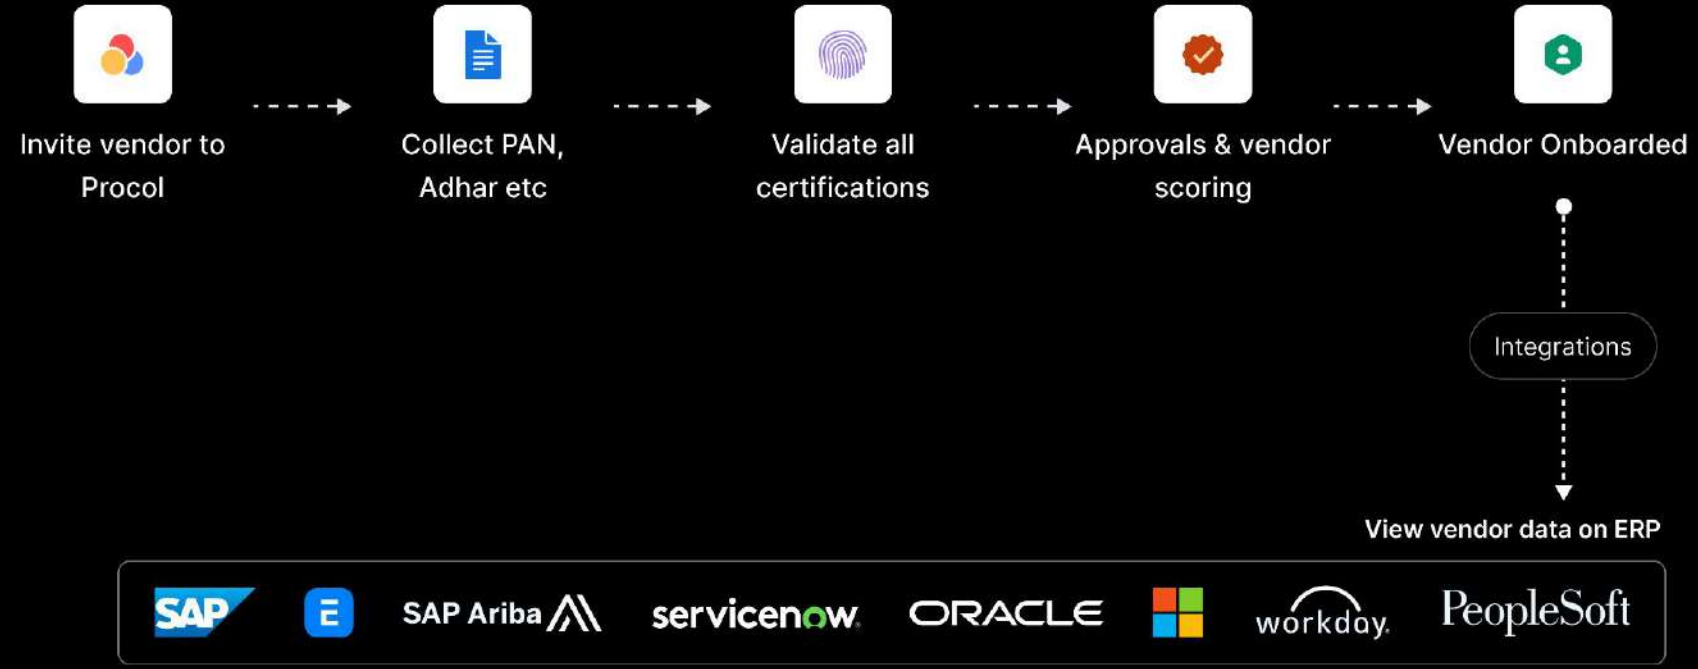

→ Manage and rate suppliers

Based on their activity, you can rate suppliers and hence not only manage relationships but also have a bird-eye view of your top-rated vendors.

- Realize average savings of up to 8% in current unmanaged spend

Operational Efficiency

- 200% improvement in operational efficiency
- Automate workflows across cross-functional teams
- Reduce cycle times
  Defer headcount

Visibility and Control

- Global centralization of sourcing data
- Enforce compliance and financial controls
- Clean data with audit trails
- Maintain business continuity

Success Stories

"We were able to save 40% of time from PR to PO, which is commendable. We traded $100M+ on the platform & saved substantially. The best part about the platform is that it has very simple user interface & is super easy to adopt, unlike other legacy tool, which are super complicated.

Rahul Wadhwa
Head of Strategic Sourcing

SIGNATURE GLOBAL

Traded on Procol

40%
Time Saved from PR to PO

Read Success Story

"Transportation & logistics form 15% of our total direct expenditure. This is where Procol has provided us with significant gains through cost optimizations. Besides Procol's customization, the time taken to float an RFQ, collate quotes, review bids, and conduct the final analysis has significantly reduced.

Soumya Srikanth
Chief Financial Officer

Quippo

80%

Case Study

80%

Faster PR, negotiation & closures

Quippo

Industry: Manufacturing

Employees: 200+

Location: India

Before

Liquidity and procurement-related issues

Lack of a central system for buyer development processes

High TATs for purchase requisition processes

High manpower requirements

After

Optimisation of expenditure worth 81.47 crores through reverse auctions

Generation of -716 lakhs in logistics and -73 lakhs in raw materials

Improvement of -80% (24 hours to 2 hours) in overall TAT for purchase requisitions, negotiations, and closures

ANNUAL REVENUE

Case Study

4%

Savings on transactions

HERSHEY'S

Industry: Food & Beverage

Employees: 500-1000

Location: India

Before

RFQs were manually sent to a large number of suppliers for over a few thousand products which led to process inefficiencies and errors in centralising data.

Sourcing was decentralized across multiple manufacturing plants with delta in pricing for raw material as well as indirect spend.

ANNUAL REVENUE

After

Integrated source-to-contract process automated the RFQ process with PR intake generated from SAP ERP.

Procol centralised sourcing across all manufacturing plants enabling central contracting for raw material and indirect spend which delivered 4% savings.

Case Study

70%

Decrease in
PR to PO lead time

AM/NS

- Industry: Manufacturing
- Employees: 10,000+
- Location: Europe, APAC

Before

The average lead time from PR to PO stood over 60 days. This led to higher inventory cost, and unhappy users.

Approvals were manual via emails leading to limited control and visibility.

Complex category sourcing events took weeks to close due to large number of line-items and suppliers participating.

After

PR to PO lead time was brought down by over 70% by implementing digital transformation.

Controls were established by integrating in-built approvals workflows from intake to contract.

Optimised complex sourcing events of contracts over $100M making it easier to analyse and award bids, generating savings over 5%.

Procol

Thank you

We look forward to building a lasting partnership.
